PROFILE

A passionate and motivated developer with a strong eagerness to learn and adapt. Skilled in collaborating within agile teams and committed to continuous improvement and delivering high-quality solutions.

SKILLS

- ASP.NET (C#)
- Laravel (PHP)
- SQL Databases
- REST APIs
- Vue.js (JavaScript)
- Git & GitHub
- Azure DevOps & CI/CD

LANGUAGES

- Swedish (Fluent)
- English (Proficient)
- Arabic (Native)

EDUCATION

Bachelor's Degree in Informatics

08/2020 - 06/2023

Web Development Program | Karlstad University

During my studies at Karlstad University, I acquired extensive knowledge in both frontend and backend development, with a particular focus on JavaScript and C#. I have experience in implementing and maintaining web-based systems, as well as working in an agile environment to ensure high-quality project outcomes.

Higher Vocational Diploma

09/2012 - 08/2014

Computer science | Damascus University

During my studies in Computer science at Damascus University, I acquired knowledge in programming, databases, digital communication, systems development, and software development.

The education has been evaluated by the Swedish Council for Higher Education (UHR) and is equivalent to an advanced higher vocational diploma in Sweden.

WORK EXPERIENCE

eSys Solutions Sweden AB

09/2025 - present

Developer

- Develop and maintain secure and scalable backend systems using Laravel, with a strong focus on performance, stability, and long-term maintainability across company applications.
- Coordinate and manage technical projects using Azure DevOps and GitHub, ensuring clear task planning, effective team collaboration, and reliable CI/CD workflows.
- Collaborate with frontend teams using Vue.js and JavaScript, translating business requirements into practical, well-structured technical solutions.

Freelancer

01/2024 - 06/2025 Remote

Developer

- Develop scalable and secure backend solutions in ASP.NET with integrated database management. The goal is to deliver optimal performance and robust security in every project.
- Develop responsive, tailor-made frontend solutions with HTML, CSS, and JavaScript, designed to match the client's specific requirements and needs precisely.
- work independently and in teams, utilizing agile methods and clear communication to streamline and optimize the project workflow.
